Keep your Torah Kosher Forever! Torah Maintenance

Checking a Sefer Torah with a computer is a valuable tool to confirm the Kashrut of a scroll

Torah Maintenance & Computer Checking of Sifrei Torah On Site

- Longevity of a Torah will depend on insuring the scroll is maintained on a regular basis.
- Torah's are maintained & computer checked on site
- A Kosher or recently restored Torah should have scheduled maintenance visits once every year or two to insure in maintains it's Kosher statues.
- Every Torah must be written accurately and must include in it all the letters without missing or adding even one. Since the Torah is a hand-written scroll, errors do occur.
- A computer check can identify problems in the specific Mesorah (traditions) that are relating to the formation of words in a Torah as well as extra or missing, letters and words.
- Sending a Torah away to be computer checked, can take a few months, while the shipping with insurance adds to the cost and inconvenience.
- We provide computer checking of Sifrei Torah ON SITE with our mobile computer lab. We scan and analyze each Torah and within a few hours. you have the printed results without having to send your Torahs away. Make a copy of your Torah and use it as a Tikkun Sofim.
